

REMARKS

Claims 1-16 are pending in the present application.

The Examiner has required election in the present application between:

Group I, claims 1-6, drawn to mammalian expression vectors coding for a fusion protein of a glucagons C-terminal side 19-29 and a first method for use for gene therapy;

Group II, claims 8-10, 13 and 14, drawn to a second method of use of mammalian expression vectors coding for a fusion protein of glucagons C-terminal side 19-29, for protein quantification; and

Group III, claims 11 and 12, drawn to a label consisting essentially of a glucagons C-terminal side 19-29 peptide.

For the purpose of examination of the present application, Applicants elect, with traverse, Group I, Claims 1-6. It is submitted that the claims of Group I constitute a common technical feature which links all three groups of claims.

Should there be any outstanding matters that need to be resolved in the present application, the Examiner is respectfully requested to contact the undersigned at the telephone number below, to conduct an interview in an effort to expedite prosecution in connection with the present application.
